Small UAS Certificate of Registration

Name: Drago Entertainment Inc.

Manufacturer: DJI

Model: Inspire 2

Serial Number: OAOLDCN00301P7

Certificate Number: FA3H4AEHHH

Issued: 07/17/2017 Expires: 07/17/2020

For U.S. citizens, permanent residents, and certain non-citizen U.S. corporations, this document constitutes a Certificate of Registration. For all others, this document represents a recognition of ownership.

For all holders, for all operations other than as a model aircraft under sec. 336 of Pub. L. 112-95, additional safety authority from FAA and economic authority from DOT may be required.

This Small UAS Certificate of Registration is not an authorization to conduct flight operations with an unmanned aircraft. Operations must be conducted in accordance with the applicable FAA requirements. The operator of the aircraft is responsible for knowing and understanding what those requirements are. For more information on flying for non-model purposes, please visit the FAA website at www.faa.gov/uas

Criteria and Guidelines for Film LA DRP Referrals in the Santa Monica Mountains

Updated: May 1, 2018

Information to be asked by Film LA:

- Specific location(s) for filming, simple site plan/pinpoint on aerial image where filming will occur. Photographs of area to help clarify, if needed.
- Will new construction of any set or set material be required?
- Will vegetation/wildlife/natural habitat be disturbed by the film activity? Explanation of yes or no response.
- What type of equipment will be utilized for filming activities, and where will the equipment be stored? Are any generators or other fuel sources proposed?
- How many crew will be on set? What are the proposed hours of operation, including set and strike?
- How many trucks, trailers, and other vehicles or machinery will be on set, and where will they be stored? Have the production list the types of machinery (for example, cranes, fans, trucks, generators, special effects equipment, etc.).

Criteria for Permits that do not need referral to DRP:

1. Projects that do not require construction of any temporary or permanent structure.
2. Projects that require no brush clearance, vegetation removal, or placement of any permanent or temporary structure within protected zones of native trees, such as oak trees
3. Projects filming within existing structures and/or where no modifications need to be made
4. Projects where only persons and/or hand-carried items will be present within vegetated habitat areas (ex: filming under an oak tree should not include installation of material in the ground or on the tree)
5. Projects which do not involve the alteration of the physical environment, such as the staging of equipment and crew, including trucks and other large equipment for filming (fans, wires, cranes, etc.) and where the potential for noise, lighting, air quality impacts is not significant.

Situations where DRP may want to review filming event:

1. Events using wildlife or domestic animals in sensitive habitat areas (want to look at animal containment and cleanup programs when events are near sensitive habitats)
2. Construction or modification of temporary or permanent structures and any structure that would normally require a building permit.
3. Movement of vegetation, Use of nursery stock/new landscape/reseeding of vegetation
4. Filming in or near any sandy beach area under County jurisdiction (i.e. Nicholas Canyon and Topanga County Beaches, Leo Carrillo State Park beach area)
5. Grading, digging, trenching, mining or extraction of materials
6. Discharge or disposal of gaseous, liquid, solid, or thermal waste
7. The use of fireworks, explosions, pyrotechnics, and fire, including bonfires, fire-pits or campfires.
8. Projects that involve the alteration of the physical environment, such as the staging of equipment and crew, including large amounts of trucks and other large equipment for filming (fans, wires, cranes, aircraft, etc.) and where the potential for noise, traffic, lighting, and air quality impacts are significant.
